

ANDREA LOMBARDO

ABOUT MY EDUCATION:

I received the Bachelor's degree on Engineering in Computer Science in 2019 at University of Tor Vergata. Actually I am a Master's degree on Engineering in Computer Science at the Sapienza University of Rome.

CONTACTS:

WEB SITE:

<https://lombardoandrea195.github.io/>

PROJECTS DONE:

<https://github.com/LombardoAndrea195>

EMAIL: l.andrea195@live.it

DAY OF BIRTH: 06/08/1995

HOBBY:

Basketball referee in FIP e CSI (from 2013)

SOFT SKILLS:

- Flexibility to adapt into several different environment
- Ability on hearing, interacting and sharing informations, ideas with the team
- Capability to work into a group
- Capability to analyze problems and solving solution according the system's capabilities
- Capability to build algorithms for the occurence.

INSTRUCTION:

Liceo Scientifico Cavour

2009 – 2014

Bachelor's Degree on Engineering in Computer Science at Tor Vergata

2014– 22/02/2019 Address: Software & Web system

Master's Degree on Engineering in Computer Science at La Sapienza

2019–onGoing

JOB EXPERIENCES

None

SKILLS:

Language skills:

- C and syscall Posix,
- Python, Jython
- Java, JavaFx, (usage of the JDBC pattern and Servlet)
- knowledge microservices, SOA and WebService (REST e SOAP)
- knowledge of different development approach: CMMI, SCRUM, AGILE and waterfall and iterative
- knowledge of NLP algorithms in (ex: SVM,Rocchio,KNN)
- knowledge of Machine Learning technique (classification, regression, unsupervised algorithm, Reinforcement learning, basic concept of Neural Network)
- Usage of JMS and RabbitMQ as Remote Procedure Call
- web development: HTML, Javascript, CSS
- query language: SQL, NOSQL
- Assembler on architecture MIPS,
- Mobile Programming: Android
- UML, Design Pattern
- Router protocol: DHCP, NAT, RIP, OSPF
- Network Infrastructure: Access,telephone, Core network

Technical skills:

Capability to follow all the lifecycle software (analysis and specification of requirements, design,implementation, testing..)

- Operating system: Linux,Windows
- knowledge of algorithm techniques and concept obtained by the two courses of G. P.Italiano at Torvergata during the first degree and the second one of S.Leonardi in Sapienza during the master in Sapienza
- Application Web;protocol TP/IP,UDP,server http(Apache,IIS)
- DBMS: (relational)postgres,MySQL (not relational) Firebase,Mongodb
